

Jeremy in Fazbear's Fright

Chapter one Find and Sell

Parentless kid named Michel was looking for something in an old abandoned Freddy's pizzeria the one which got shut down after a tragic incident.

Michel found a room blocked off with wooden planks and above the door there was a sign with "Parts and service" written on it

Michel: This has to be the room Joe was talking about

Michel took his phone and called his work boss Joe

Michel: I found the room you were talking about yesterday but it is blocked off with planks what do I do now

Joe: remember that axe I gave you? Yeah you have to chop them down wasn't it simple enough you to understand?

Michel: ok but I still have one more question

Joe: what

Michel: why would someone make a device which tracks Spring Bonnie?

Joe: oh... I forgot you haven't heard about why the pizzeria closed down

As you see one of the workers were using Spring bonnie animatronic as a suit and luring the children to a secret room outside camera's sight he killed 5 children but the boss of the pizzeria Henry who has seen it told all of the workers about it so the company made tracking devices which tracked every single animatronic's movements to detect the murderer who is using them as suits. They did find the children's corpses inside the animatronics but it was too late the pizzeria closed down because of the murders that happened

Michel: wait children died in their own birthdays?!

Joe: yeah mike you didn't think that the world is this unfair did ya?

Michel: okay am... thanks for the Info I will look for the device now

Joe: wait the minute isn't your brother supposed to be working with you? Where is Jeremy

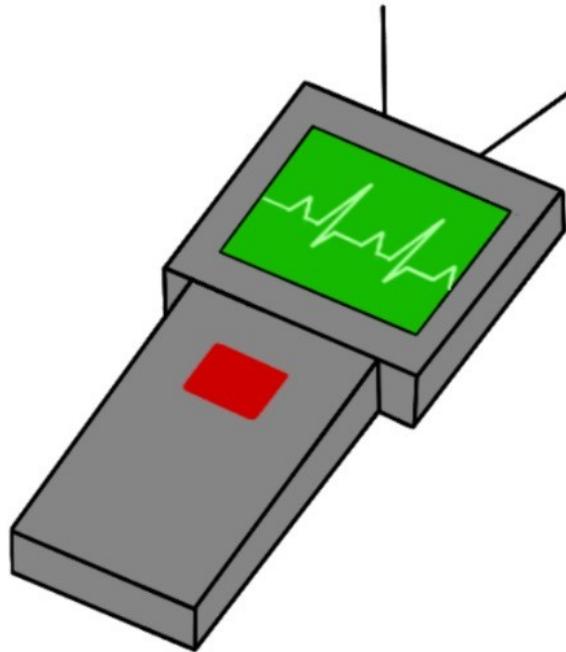

Michel: he's outside

Joe: I'M NOT PAYING HIM TO SIT ON HIS A-

beep

Michel turned off his phone, chopped down the planks and opened the door. he found the device in an Iron desk drawer under a blueprint of Spring Bonnie

The device had one red button, two antennas on top of it and a screen with a line on it

Michel pressed the button and the device's screen started to make waves, closer and closer he got to Spring Bonnie longer and longer the waves got

The weird thing was that the signal was coming from a wall

Michel: I think there isn't any other way into the wall other than breaking through

Michel hit the wall with an axe over and over again until he didn't make a hole big enough to squeeze through. He took out a flashlight from his backpack and turned it on, he found Spring Bonnie.

Spring Bonnie had a rusty green color, it was damaged like someone was using it as a punching bag or something, it five fingers unlike the other animatronics since it was also used as a suit.

Michel: Was he made for children's entertainment or as a Halloween costume... well he is very old so I guess that might be why Joe needs it in his Horror attraction

Michel dragged Spring Bonnie barely fitting him through the hole and calls his brother Jeremy

Jeremy: what is it?

Michel: I found Spring bonnie

Jeremy: yeah then what are you waiting for bring it here

Michel: yeah I am dragging him outside but he is too heavy can you give me a hand

Jeremy: fine wait right there I will open the doors of my van first

Jeremy helped Michel drag Spring Bonnie to the van and put him inside

Jeremy: damn he is really dirty

Michel: yeah... now I know why Joe needs the original animatronics now

Jeremy: yeah me too he's dirtiness really fits his crappy Horror attraction

Michel: no it's because in Fazbear's Fright there is nothing scary so he needs older and creepier animatronics like Spring Bonnie it even has a dark past of getting used by a child killer

Jeremy: that's pretty much the same thing his "Horror Attraction" is crappy because there is nothing scary there is just a maze with old Freddy pizzeria's decorations and unpaid workers

Michel: we're one of them

Jeremy: exactly I'm not getting paid enough for this crap

Jeremy and Michel started driving towards Fazbear's Fright from the old pizzeria

Michel: Jeremy?

Jeremy: why can't you wait for couple of minutes we will buy food afterwards alright?

Michel: The car is making two extra traces do you think something is broken or something?

Jeremy: oh god please tell me it's not broken please tell me it's not broken please tell me it's not broken

Jeremy stopped the van took Michel's flashlight and looked under the van

Jeremy: WAIT WHAT THE HELL?!

Under the van there was something attached to it or someone, It was a marionette animatronic also known as " Puppet" Most animatronics were bulky and large with metal bodies but this one was different, she had a very skinny dark plastic looking body white face miserable smile rosy cheeks, black eyes, purple tears, three long fingers and

Michel: ARE YOU OKAY?

Jeremy: If you don't call almost crapping your pants in terror because you see a potentially killing slander monster under your van okay NO

Michel: wait what?

Jeremy: yeah... how the heck did it get under my van

Michel: we should get rid of it

Jeremy: no a better Idea is to sell it since Joe is an idiot it wouldn't be bad to... ya know? Make it his responsibility to deal with this and also pay us before realizing that it was dangerous

Michel: why can't we at the very least break it so it won't hurt people

Jeremy: It won't be my... OUR problem Trust me if someone saw it move on Its own Joe would make sure to break it himself... or in this case make others break it for him because he is a lazy fat man

Michel: why are you so rude

Jeremy: when you'll be as old as me you will find out how much the world sucks if mom and dad were still here I wouldn't have to pay taxes struggle to buy food and water and sleep for 6 hours a day

Michel and Jeremy went in Fazbear's fright with two animatronics

Fazbear's fright had rusty green walls, there were posters of the old Fazbear's restaurant a maze parts and service room janitor's closet Night guard's office and the hallways were decorated with the heads of the old animatronics

Joe: well look who's here mister lazy and misses tiny

Michel: I'm a boy and almost your size

Joe: you act like a girl and are dumb as a brick where is Spring bonnie

Jeremy: see? That's also why I hate his guts

Joe: WHAT WAS THA- wait... what is that

Joe pointed his finger at the Puppet

Jeremy: oh you mean this black animatronic? I found him in the pizzeria

Joe: well I didn't expect you to bring another animatronic. it wouldn't be so bad to have two of them but I already told you not to do anything beyond my instructions

Jeremy: we are actually done with selling these animatronics we can't bring any more of them because there aren't any more to bring so we won't be following your instructions anymore

Joe: oh well then since you guys brought puppet with you as well instead of 500\$ I will pay 750\$

A random worker: I've heard animatronics are worth mo-

Joe: GET BACK TO CLEANING LUCAS

Jeremy: 1000\$ or we'll sell it to someone else

Joe: get your money or starve to death outside begging

Jeremy: fine jeez getting 750\$ isn't that bad

Joe: that's good to hear now get your poor legs out of my property

Joe gave Jeremy 750\$ and they were ready to leave

Michel: Wait I forgot to give you the axe and the tracking device

Joe: no need I already have my money makers right here and it's not like we will need fire axes any time soon, oh and Jeremy before you go I want to ask you something

Jeremy: what is it, do you want me to clean them for you? I already said I don't work here anymore!

Joe: no I wanted to ask would you want to work as a night guard in my Horror Attraction.

Chapter two

Is she alive?

It was Jeremy's dream to have an easy job but he still knew how he found the Puppet under his van he knew she was probably possessed and didn't want to deal with burning or breaking her because then he would get fired from the job

Jeremy: no I can't work here

Joe: why not aren't you looking for a job?

Jeremy: yes but I don't want to...

Joe: don't want to what live? Work? Buy actual clothes worth a damn

Jeremy: ffffffffffine I will work as a night guard as long as I can use that coffee machine you have right there

Joe: excellent you can drink as much coffee as you need meet me here at 11:50 pm I will show you your office

Jeremy wanted to say no but if he didn't get a Job he wouldn't be able to take care of himself nor his brother so even if the odds of his survival in the pizzeria was low not getting the job was far worse dying outside freezing and starving to death slowly

Time: 11:58 pm

Place: Fazbear's fright

Joe: you're EIGHT MINUTES LATE

Jeremy: I'm sorry it's my first time starting work at night

Joe: since you are late I put recorded instruction tapes on your office desk I have to go home nobody can stay in the pizzeria after 12am

Jeremy: alright but where IS my office

Joe: there's a map of the whole place on the desk on your right

Jeremy took the map of the Fazbear's Fright

Jeremy: okay... but what about my pay

Joe: it's around 7\$ an hour but hey it's better than dying isn't it

Joe left with a smirk on his face while Jeremy looked for his office, when he found it and got in he saw a long desk with a fan and a camera system on it which looked like early 2000s computer with camera switching buttons as a keyboard, it also had two chairs and a tape on the left side of the desk

Jeremy press the play button on the tape and this is what he herd

Tape: Uh Hello? Hello? Uh welcome to your new Job as a Night guard In Fazbear's Fright, this will provide you with much needed information on how to get through the first night

Jeremy: let me guess this guy is going to speak for the whole night maybe Joe decided to make this as boring as possible to make me sleep in the first night and fire me afterwards

As you see we turn on the animatronics at night because if we keep them turned off for too long their servos will lock up and they won't be able to move at all anymore. Spring bonnie is still getting his servos fixed so you won't have to worry about him BUT if Puppet gets near you you won't be getting out of here alive

Jeremy: wait WHAT?! They knew that puppet thing was dangerous and just didn't care?! Wait... doesn't that mean Springtrap can move too?

Jeremy felt like he had to leave the horror attraction immediately and call the police about this but he thought maybe Joe made this up so he would make Jeremy do his job

Tape: as you see the animatronics won't see you as a person they will see you as a robot exoskeleton I think there is some kind of glitch in the system at least that's just a theory of mine. * sneeze * so since that is against the rules due to their programming they will forcefully stuff you in a Freddy Fazbear suit the one the employs used to use as a suit until we didn't find out about their fateful flaw. it wouldn't be so bad if the suit was just a suit but it's actually an animatronic and animatronics of Freddy Fazbear's pizza have four different modes to their animatronics

- 1) suit mode
- 2) animatronic mode
- 3) free roaming mode

4) sleep mode

Suit mode is moving the closing mechanisms known as spring locks away from the suit letting humans wear it but if the animatronic is in animatronic mode the spring locks will get back to their normal position now imagine getting forcefully stuffed inside of the suit while it is still in the animatronic mode it will crush your bones with its sharp endoskeleton parts give you big scars on your body and potentially... definitely kill you.

One of the employs spilled coffee on the suit while wearing it which softened the locks and made the suit get back to the animatronic mode and... you know how it ended

Now let's talk about how you actually work here you can press the camera buttons to switch the cameras and press the button on the left side of you to close the steel door

By the way the red button on your RIHGT will close ALL of the doors in the building and open the Vent door to let you get outside it is only used in emergencies and it takes away a lot of energy to keep the doors closed so the animatronics won't lift it up so don't press it unless it is absolutely necessary

Okay good night

Beep

Time: 2:04

Jeremy has been looking at the cameras for the last 2 hours looking for any signs of puppet moving, He thought that the tapes were lying to him but if he double checked the first night and puppet didn't move he would be able to relax knowing that his life isn't in danger

Jeremy: oh god I can barely stay awake sleeping is going to be death of me. I should probably get coffee from Joe's coffee machine now and if puppet has been just waiting for me to come out of my office then it's getting a big slap in the face

Jeremy was moving towards the entrance where the coffee machine was. When he turned around to move through the right hallway he saw puppet carrying some king of animatronic part, puppet turned its head towards Jeremy slowly, it started talking in a girlish voice

Puppet: wait don't be afraid I'm here to-

Jeremy fell down in fear screaming and in an instinct tried to run away from it

Jeremy jumped into his office in the last second closing the door and pressing the red button on his right. Every single iron door closed in the horror attraction and the vent door opened up

Puppet started banging on the glass in front of the office saying

Puppet: WAIT YOU HAVE TO FIND A WAY TO KILL SPRINGTRAP THE ONLY THING I CAN DO NOW IS TO RIP HIS SERVOS OUT TO BUY YOU SOME TIME!

Jeremy stopped crawling through the vents and thought if Puppet was telling the truth Springtrap is far more dangerous than her and she's trying to help

Jeremy went through the vent getting back home. He fell on top of his bed tired thinking about what just happened

Jeremy: alright so... Puppet can talk and... what did she tell me again?

Kill Springtrap? Springtrap sounds like Spring Bonnie but how do I kill him it's not like I am a tough red clothed solider with a world war two helmet and a bazooka I AM JUST A NIGHT GUARD

Michel: Jeremy? It's the middle of the night I am trying to sleep, wait why did you get back home so soon?

Jeremy: don't ask I already have enough problems to deal with I don't want you to come with me and screw everything up alright? You will stay at home.

Michel: I just want to help

Jeremy: oh my god my head hurts... FINE but if you get hurt it's not going to be my fault

Chapter three

Hello Funtime Freddy

Jeremy explained everything, he told his brother about how puppet started talking to him telling him to kill Springtrap (Spring Bonnie) but he didn't know how to kill an alive animatronic.

Michel: if you want to kill an animatronic then we have to know it's weak spot

Jeremy: what's it's weak spot supposed to be its kneel? How are we supposed to find that out

Michel: am... I don't know...

Michel remembered the first time he found the tracking device for Spring bonnie he found it under something

Michel: we could find out if we looked at his blueprints

Jeremy: and where is that supposed to be huh?

Michel: I have found a blueprint when I was looking for the tracking device

Jeremy: you have? Well I guess we will just go to the pizzeria in a day and probably bring the axe with me to protect myself from... anything that will want to hug the underside of my van

Time: 7:32 am

Place: Freddy Fazbear's Pizzeria

Jeremy and Michel got in the pizzeria

Jeremy: alright tell me where that blueprint is

Michel: the tracking device was under the blueprint and if I remember correctly it was in the parts and service room

Michel and Jeremy got in the Parts and service room and found the blueprint of Springtrap in the drawer but the weird thing was there was a small switch in front of it

Michel: am... why is there a switch in there?

Jeremy: only one way to find out

Jeremy flicked the switch and after that the wall next to them started moving downwards revealing a dark room

Michel: what just happened

Jeremy: I have no Idea... give me the axe I will carry it, it's not like you do anything but guide where things are around here

Michel took his flashlight and pointed it towards the room

The room had many animatronic footprints white rusty walls, a long desk in the middle, a large box of some sort in the middle and on the right was another room where there were broken parts of the animatronics

Michel: please tell me you aren't getting in there

Jeremy: I have an axe what's the worst that can happen

Michel: there could be anything there including another animatronic

Jeremy: I don't think there is and even if there was I think I can handle it

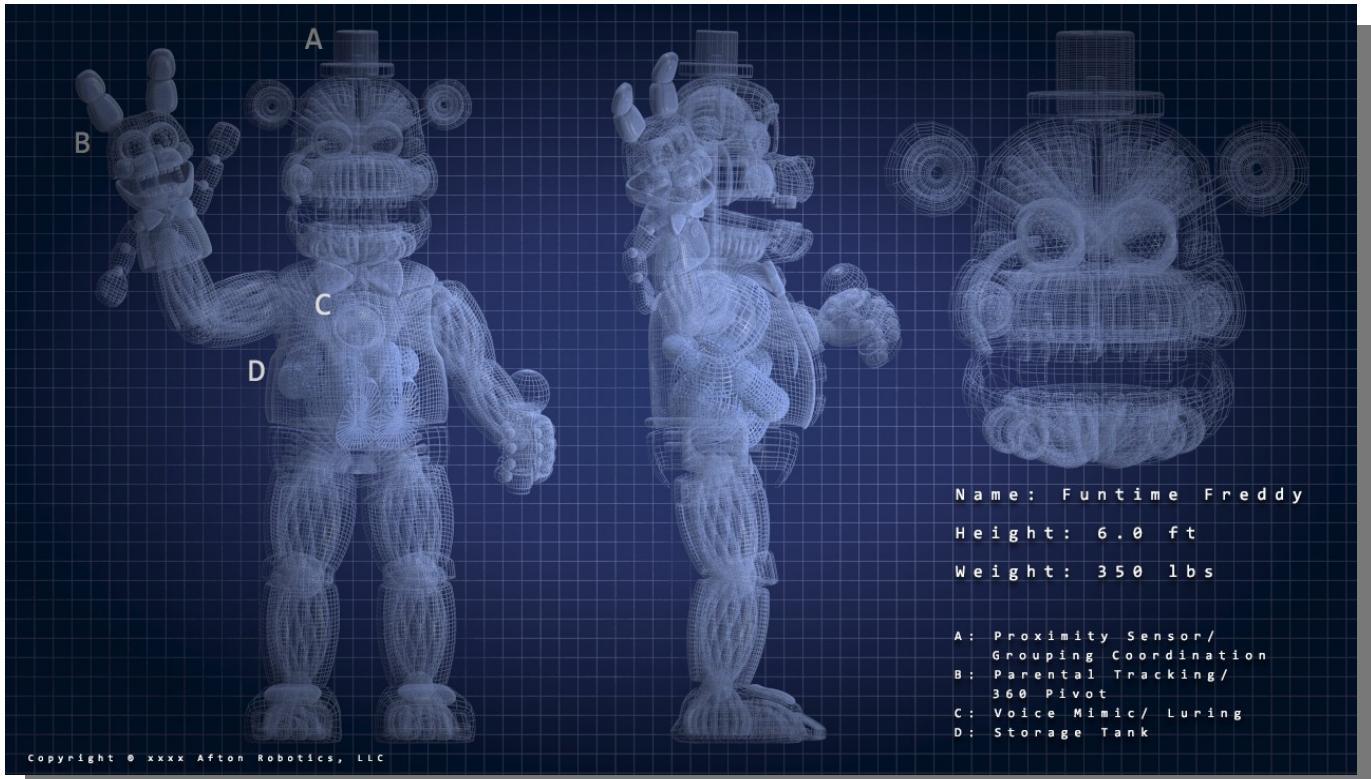

Michel: wait don't leave me here

Michel and Jeremy got in the room and started looking around

Michel: look over there I found more blueprints on the table

Jeremy: more of them? They are probably the blueprints of the original old animatronics

Michel: no this looks different it looks like Freddy but it has a bunny hand puppet and... what is that in his stomach

Name: Funtime Freddy

Jeremy: Funtime Freddy? He has never been into any of the pizzerias before

Michel: maybe that was something they were planning on creating but didn't

Jeremy: okay you will go look for stuff I want to look closer to the blueprints

Michel found another switch but on a wall so he thought that it was going to reveal another room he flicked it but something different happened the box in the corner started opening

And Freddy opened his bright eyes

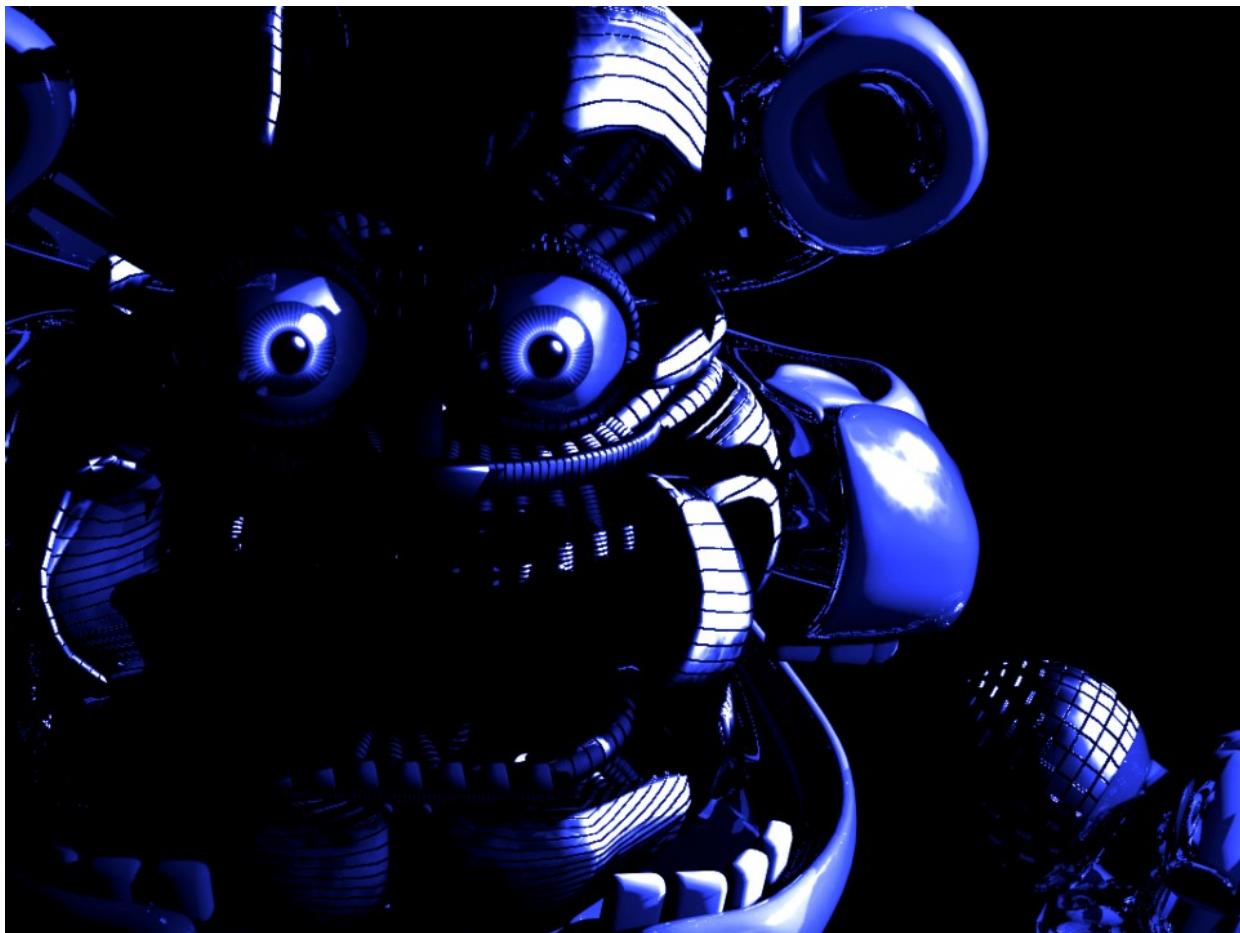

Jeremy looked around and said

Jeremy: MIKE WHAT DID YOU DO

Funtime Freddy started moving turning his head towards Michel

Funtime Freddy: BON BON GET EM

Funtime Freddy threw the bonnie hand puppet at Michel pinning him on the floor, he started walking towards him opening his chest and face plates

Suddenly Jeremy kicked bonnie off of his brother grabbing his hand and taking him away from the monster

Funtime Freddy: GET CLOSER I DON'T BITE

Jeremy and Michel ran away from the room flicking the switch again to trap Funtime Freddy inside

Jeremy: HE ALMOST GOT US KILLED MIKE

Michel: I'm sorry

Jeremy: I told you not to come

Michel: I said I'm sorry I will be more careful next time

Jeremy: don't follow me if you want to help me help me with something else

Michel and Jeremy drove back home thinking of a way to stop Springtrap

Jeremy: maybe break his servos while he's still in sleep mode? I heard that animatronics can't move... but then again Joe will probably fire me and fix him anyway and Puppet is already doing that

Michel: wait... THAT'S IT

Jeremy: huh?

Michel: why are we looking for a weak spot if Joe will fire you and fix him anyway if we want to end his life we will have to leave nothing behind

Jeremy: yeah but how are we going to do that

Michel: am... if he's made of metal we will have to melt him by-

Jeremy: and to do that we need to burn him to the ground

Michel: that... was what I was going to say

Chapter four

He opened his eyes

Jeremy wrote a plan which they would follow to make sure that they would burn all of the animatronics

- 1) They were going to buy gasoline and bring it to Fazbear's Fright with Jeremy's van
- 2) make sure nobody is watching
- 3) They were going to spill gasoline between the outside of the office and behind the Iron doors which activates if you press the evacuation button
- 4) Lure Funtime Freddy there before the animatronics wake up

- 5) when Springtrap wakes up lure him outside of the office
- 6) Burn them while they're standing on the gasolined floor and quickly press the evacuation button to close all of the doors to trap them in one place and burn them while Jeremy and Michel will crawl through the vents safely

Time: 11:25 pm

Place: Fazbear's Fright

Jeremy and Michel bought and brought gasoline to Fazbear's Fright but the weird thing was that Joe was waiting outside

Jeremy: oh... hey Joe

Joe: hey??? WHERE DID YOU GO YESTERDAY

Jeremy: aaaaaam... what?

Joe: you really think that you can just press a red button and just go whenever you want?! I HAD TO LOSE MONEY ON THE ENERGY YOU USED UP ON THAT

Jeremy: WELL IT WASN'T MY FAULT THAT YOU TRIED TO SACRIFICE ME TO AN ANIMATRONIC FOR MINIMUM WAGE

Joe: you dare SPEAK UP TO ME?! I will stand right here and if I will see you pressing that evacuation button again

I will fire you from the Job... and what is this brat doing here

Jeremy: I am showing him where I work
Jeremy and Michel got inside the Fazbear's Fright
knowing that their plan was ruined they couldn't bring
gasoline to the horror attraction nor drive to the pizzeria
because Joe was watching

Michel: we screwed up

Jeremy: I know I know just... take this map of the
Fazbear's Fright It also has the map of the maze which
will probably get useful later if you will need to hide from
any of them

Time: 2:00AM

Michel: It has been two hours

Jeremy: this was actually the exact time Puppet started
running toward-

Jeremy and Michel heard a loud door slamming sound

Jeremy: oh no DON'T TELL ME

Jeremy switched the cameras and didn't believe his eyes
Joe was laying down bleeding he was headless

Jeremy: mike hide!

Jeremy and Michel hid under the desk they couldn't see what was going on but they could hear something walking behind the office and it didn't sound like it was a normal person it was a lot heavier and it seemed to be dragging something

Jeremy peeked over the desk and saw...

Jeremy immediately hid under the desk again and put his hands on his mouth

Springtrap moved away slamming the exit door open and walking away

Jeremy knew Springtrap was up to something but didn't want to get spotted by him he didn't want to end up like Joe

Michel: is he gone?

Jeremy: yeah... he left can you give me your Tracking device? I need to know where he's going

Michel gave Jeremy the tracking device scared still under the table

Jeremy: okay thanks you will spill the gasoline while I will follow Springtrap okay?

Jeremy took the tracking device his axe and followed Springtrap's signals the way the signal was coming from was the same way as the old pizzeria

Time: 2:17AM

Place: Fazbear's pizzeria

Jeremy got signals from the secret room he peeked inside and was shocked to see Springtrap trapping Puppet inside another animatronic

Who was missing his left eye and was as tall as... Funtime Freddy?

Chapter five

Springtrap's origin

William Afton starts working at Fazbear's Family Diner in 1983 the same place his son got a birthday party but everything changed that day when his older brother tried to pull a prank on him and put his head inside of Golden Freddy's mouth

Kid started crying dripping his tears into the suit that drip of tear was more than enough to moisten the animatronic locks closing all of its springlocks including his mouth making the mouth close shut and crushing crying child's head

William Afton couldn't believe his eyes he's little 3 year old kid in his own birthday party died in front of his eyes

The Fazbear's Family Diner closed down that very day because of the tragic incident

In 1987 another restaurant opened up named Freddy Fazbear's Pizza

In the end of one black haired girl's birthday party Foxy was entertaining her while her mother was outside talking to her friend

she got closer to foxy looking at him closer but Foxy was programmed to bow to the audience and put his hook on his chest and since she was in the way she got stabbed in the back and when foxy got up the hook sliced her upper back. William Afton saw that in the cameras and tried to hide this fact from the mother while she was still outside of the restaurant so she wouldn't feel the same pain he did after losing his son, He put the corpse inside the puppet he cleaned the blood off of foxy quickly and got back to the room

William lied to her mother's face telling her that he didn't see her anywhere

That same night William Afton saw Puppet moving in the cameras and he realized that she somehow came back to life she even started crying asking if someone was there and that she was scared

William knew what to do he put his son's corpse inside golden Freddy but... nothing happened he didn't come back to life so the only way he could bring his son back is by learning how to do it by testing it on other children

Henry his boss actually saw William Afton kill 5 kids but was afraid to do anything he felt like If Afton was that sick of a person he would kill him too he didn't even ask why he was doing this

Afton started experimenting with children coming to he even made a giant version of Freddy to capture more kids to make more experiments in his secret room he even made up a killing tactic to wear a Spring bonnie suit look

innocent lure children to the back room outside camera's sight and kill them there

But one night Puppet actually started getting more aggressive and tried to fight against William. he had no chance of surviving robotic sharp attacks like Puppet's so he put on his robotic Springtrap costume to protect himself the bad thing was though that he didn't realize that water was dripping from the ceiling and exactly the same way his son died because of an exoskeleton Springlock failure his father William Afton died inside the costume he was using to kill kids

Freddy Fazbear's pizza closed down and Henry sealed Spring bonnie inside of the wall since did he nor did the Puppet knew how to kill an animatronic they decided to trap him in a wall a box without exit Spring bonnie comes back to life but was stuck inside a wall he was trapped that's why Henry and Puppet started calling him Springtrap in the first place

When he was trapped the only thing he was thinking about was to make Henry and Puppet suffer to make them feel the pain of losing a child or even multiple children

YEARS later Michel broke through the wall bringing Springtrap and Puppet to the Fazbear's Fright

Puppet broke Springtrap's servos to stop him from moving to give the night guard Jeremy time to find out how he could defeat him

The next night she saw Springtrap standing right in front of her she tried to put up a fight but the rage anger and thirst for blood was pushing Springtrap to fight harder he beat Puppet kicking her outside of the parts and service room then he saw a man carrying a taser gun aiming at him Joe was trying to shock him to stop him from moving but Springtrap snatched the taser from Joe's hands and threw it away

He caught Joe by his head banging him against the wall the last thing Joe saw was the dead eyes of Springtrap he tried to escape while crying in fear and then he got his head crushed

He brought Puppet to the pizzeria Funtime Freddy was there still trying to fit through the door, since Springtrap didn't need him anymore he broke Funtime Freddy taking the scraps of the animatronics from other room he put puppet inside of Freddy and started fixing him so he would control Puppet's every action

Chapter six

Give up your spirits

Jeremy was thinking why would Springtrap just trap her was Puppet looking out for herself and pretending to be the victim?

Puppet: what did they do to you

Springtrap: why are you asking now after ALL THOSE YEARS

Puppet: Henry never told me why you went insane you're the only one who can tell me

Springtrap: If you knew the bite of 83 you would have known everything

Puppet: YOU JUST KILLED CHILDREN AIMLESSLY

Springtrap: I WAS TRYING TO SAVE MY SON

They stopped talking for a moment and Jeremy tried to listen to them closer because he felt like he didn't hear half of what they said

Springtrap: my son died because of those children, they put his head inside Freddy's mouth just for the fun of it and then he got his head bitten I never even got a chance to say goodbye

The very first time you came to life I knew I could bring him back too but it just didn't work then you know the rest

you tried to stop me even if I was so close into finding out how to bring him back you tried to kill me and then sealed me in a wall

Now when you are under my control I will show you how it feels to be trapped how much pain it is to see a child lose an opportunity to be a part of the society nobody can help you now nobody

Jeremy understood everything after that, Springtrap wants to kill his brother and other children to get make Puppet suffer

His merciless killing and waiting inside a wall drove him into madness only caring about his revenge his selfish desires forgetting about his son in the presses

Jeremy was so deep into his thoughts that he didn't even remember that he was trying to hide and Springtrap spotted him

Jeremy started running away back to the Pizzeria

Springtrap: Lefty come with me, I found your first victim

Jeremy got in the Horror attraction sweating buckets and saw Michel still spilling gasoline

Jeremy: MIKE SPRINGTRAP IS AFTER US

Springtrap got inside Fazbear's Fright with lefty shortly behind

Jeremy: Mike get to the maze they won't find you there

Michel: but what abou-

Jeremy: I'LL BE OKAY JUST GO!!!

Michel runs away getting in the maze he knew the exit of the maze by the help of the map Jeremy gave him earlier but he couldn't see where Lefty could attack

Springtrap: oh look Lefty seems like we found someone better to kill

Jeremy: If you think I'm not going to stop you you're dead wrong

Springtrap: you are getting on our way
There are only two choices here

1 get out of our way

Or

2 I will kill that brat while I will be making you look at him suffer and then I will rip your head in half

Jeremy stayed silent he wasn't going to let his brother go and he was going to at least try to destroy them his own way

Jeremy held his axe tightly and prepared for battle

Springtrap: lefty while he will be fighting me I want you to bring that child to me I will show him the mistake he has made

Jeremy ran towards Springtrap aiming for the neck he swung the axe at his neck but it did nothing

While Jeremy was fighting Springtrap Lefty went to the maze looking for Michel

Michel thought if he would walk around blindly he would have less chance of encountering Lefty but the second he made the turn Lefty was right in front of him

Lefty tried to catch him but he was too slow because of his weight and size Michel was able to run away looking at the map but he didn't go too quickly so he would be able to lure Lefty close to the office

Springtrap kicked Jeremy with ease far away from the office Jeremy barely stood up feeling like his ribcage just shuddered, Jeremy waited for Springtrap to get closer and hit him in the leg but it did nothing other than make sparks erupt from Springtrap's body

Michel ran into the Office quickly running past his brother and Springtrap

Springtrap: Lefty are you kidding me you useless son of a-

Jeremy ran past him too trying to get in the office with his brother

Springtrap ran towards Jeremy catching him by the neck and bashing his head against the office window

Lefty was about to get in the office but Michel closed the door

The door didn't stop him however and started banging on the door slowly curving it bit by bit

Springtrap: look at the bright side you'll die after that meeting your brother in hell

Jeremy was trying to come up with a way to get out of that situation and then he remembered when Michel got pinned down by bonnie and was about to get killed by Freddy he saved him In an instinct he cares about his brother he shouldn't think of how he could save himself but instead how to save Michel

Jeremy In sheer rage kicked the wall under the window pushing both Springtrap and him back

Jeremy: MIKE PRESS THE RED BUTTON

Michel: BUT WHAT ABOUT YOU I CAN'T LET YOU GO

Jeremy gets up and looks at his brother

Jeremy: I will be okay just do it and save yourself

Springtrap tried to attack Jeremy he didn't want to make him suffer anymore he wanted to murder him, he tried to hit him but slipped

He didn't even realize he was standing on a wet floor
Jeremy took his axe looked back at Springtrap ran towards him swung his axe and grinded it against Springtrap's chest making sparks erupt from his body and burning himself Springtrap and Lefty

Springtrap tried to escape but Jeremy caught him while screaming in pain and agony

Michel didn't have any other choice but to press the evacuation button trapping all of them inside and opening the vent to escape the fire

He was scared feeling alone, Jeremy told him to look after himself but this was his first time being without a parent. He thought every single animatronic burnt down and his brother burnt with them... well... it was nothing but a thought
